Dear Parents/Guardians,

Updates on Student Care Centre

Thank you for completing the survey on the Student Care Centre (SCC) to allow the school to collect the necessary data for the set-up.

The setup of the SCC is a complex process that will take time as it involves calling for the tender, closing the tender and evaluating the interested vendors who have responded to the tender. We are in the midst of the tender process. The school also wants to be careful in the selection of a vendor who is suitable and can meet the school needs.

Looking at the timeline, the SCC may not be ready at the beginning of 2014. A more optimistic date would be March 2014. Please make your childcare arrangement for 2014 without considering the school student-care centre first. When the centre is ready, you may still make the transfer if you fulfill the criteria to enroll your child. A letter will be sent out to parents when the centre is ready for registration. We would also like to highlight that the number of places in the SCC is limited with priority given to Singapore Citizens and pupils from the less advantaged families.

Yours sincerely

Mr Gau Poh Teck

Principal
